

# Combinatorics and Computer Algebra – CoCoA 2015

**Gabor Korchmaros** (University of Basilicata)

**Jack Koolen** (University of Science and Technology of China)

**Stefaan De Winter** (Michigan Technological University)

**Tatsuya Maruta** (Osaka Prefecture University)

**Frank Ruskey** (University of Victoria)

**Alexander Gavrilyuk** (Krasovsky Institute of Mathematics and Mechanics)

**Gretchen Matthews** (Clemson University)

**Peter Paule** (RISC, Johannes Kepler University Linz)

**Leonard Soicher** (Queen Mary University of London)

**This conference will highlight such areas as**

- Algebraic Combinatorics
- Finite Geometry
- Finite Groups
- Group Actions
- Algebraic Graph Theory
- Coding Theory
- Design Theory
- Association Schemes
- Algorithms
- Computations
- Combinatorial Objects
- Algebraic Structures
- Classification and Isomorphism Testing
- Applications

## Colorado State University July 19-25, 2015

Organized by the Algebraic Combinatorics Group  
at Colorado State University

[www.math.colostate.edu/~betten/COCO15/cocoa15.html](http://www.math.colostate.edu/~betten/COCO15/cocoa15.html)

Limited funding for participants is available by request:  
[cocoa15@math.colostate.edu](mailto:cocoa15@math.colostate.edu)

Funding provided by:

The Department of Mathematics at Colorado State University

Linda Hamilton in memory of Robert A. Liebler

Colorado State University
