

Math Requirements for Specific Majors

The Math Placement Exam covers the content of the five one credit pre-calculus courses at CSU.

- **MATH 117** College Algebra I (prerequisite: satisfactory score on a Colorado State University Mathematics Placement Examination, or MAT 055, 093, or 099 taken at a Colorado Community College with a grade of C- or higher)
- **MATH 118** College Algebra II (prerequisite: MATH 117)
- **MATH 124** Logarithmic and Exponential Functions (prerequisite: MATH 117 and 118)
- **MATH 125** Numerical Trigonometry (prerequisite: MATH 117 and 118)
- **MATH 126** Analytical Trigonometry (prerequisite: MATH 117, 118, and 125)

The exam consists of three sections: Algebra (MATH 117 and 118), Trigonometry (MATH 125 and 126), and Logarithmic and Exponential Functions (MATH 124).

The Math Placement Exam is also testing prerequisite skills for the entry-level math courses.

- **MATH 101** Mathematics in the Social Sciences
- **MATH 105** Patterns of Phenomena
- **MATH 117** College Algebra I

Some students should be enrolled in calculus their first semester. There are three different first semester calculus courses at CSU:

- **MATH 141**, Calculus in the Management Sciences (prerequisite: MATH 117 and 118)
- **MATH 155**, Calculus for Biological Students I (prerequisite: MATH 117, 118, 124, and 125)
- **MATH 160**, Calculus for Physical Scientists I (prerequisite: MATH 117, MATH 118, MATH 124, MATH 125, and MATH 126. Note: for both MATH 124 and 126 students must place out of the course on the MPE or have a grade of B or higher.)

Major	Is math important to first semester schedule?	The ideal math placement result will allow students to register for the following math course(s).	Notes
<u>Agricultural Business</u>	Yes	MATH 117, 118, 124	The algebra section of the MPE is the most important section. You must be enrolled in or have completed MATH 117 & 118 before taking the first class required for Ag Business, AREC 202.
<u>Agricultural Education</u>	Yes	MATH 117, 118, 124	The algebra section of the MPE is the most important section. You must be enrolled in or have completed MATH 117 & 118 before taking AREC 202, preferably, in your first semester on campus.
<u>Animal Science</u>	Yes	MATH 117, 118, and 124	
<u>Anthropology</u>	No	Any, MATH 101 is fine	
<u>Apparel and Merchandising</u>	Yes	MATH 117, 118, 124	
<u>Applied Computing Technology</u>	Yes, very important	MATH 160	The algebra and logarithmic sections of the MPE are the most important sections. The prerequisites for the first computer science course are MATH 117, 118, and 124.
<u>Art (BA and BFA)</u>	No	Any, MATH 101 is fine	Only consideration for Art students is if they want a minor that requires a certain level of math.
<u>Biochemistry</u>	Yes, very important	MATH 155 or MATH 160	The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for chemistry.

Major	Is math important to first semester schedule?	The ideal math placement result will allow students to register for the following math course(s).	Notes
<u>Biological Science (Biology)</u>	Yes, very important	MATH 155	The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for chemistry.
<u>Biomedical Engineering</u>	Yes, very important	MATH 160	Biomedical Engineering is a two-degree program therefore takes 5 years (10 semesters) to complete. It is not possible to graduate in 10 semesters unless you place into MATH 160 in your first semester or plan to take summer classes.
<u>Biomedical Sciences</u>	Yes, very important	MATH 155 or MATH 160	The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for chemistry.
<u>Business Administration</u>	Yes	MATH 141	
<u>Chemical and Biological Engineering</u>	Yes, very important	MATH 160	It is not possible to graduate in 8 semesters unless you place into MATH 160 in your first semester.
<u>Chemistry</u>	Yes, very important	MATH 160	The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for the first chemistry course.
<u>Civil Engineering</u>	Yes, very important	MATH 160	It is not possible to graduate in 8 semesters unless you place into MATH 160 in your first semester.
<u>Communication Studies</u>	No	Any, MATH 101 is fine	Only consideration for students is if they want a minor or double major that requires a certain level of math.

Major	Is math important to first semester schedule?	The ideal math placement result will allow students to register for the following math course(s).	Notes
<u>Computer Engineering</u>	Yes, very important	MATH 160	<p>It is not possible to graduate in 8 semesters unless you place into MATH 160 in your first semester.</p> <p>It is important students take CS163 or CS164 in their first semester. Students must show completion of MATH124 via transfer credit, AP Credit or the Math Placement Exam in order to take CS163/164. It is highly recommended students take the MPE exam prior to orientation due to math prerequisites for courses such as mathematics, PH141 and CS163/164.</p>
<u>Computer Science</u>	Yes, very important	MATH 160	The algebra and logarithmic sections of the MPE are the most important sections. The prerequisites for the first computer science course are MATH 117, 118, and 124.
<u>Construction Management</u>	Yes, very important	MATH 125	A grade of C or better in Math 125 is required for admission to the Construction Management major. Students must take MATH 125 in order to progress to the rest of the Construction Management courses.
<u>Dance</u>	No	Any, MATH 101 is fine	Only consideration for students is if they want a minor or double major that requires a certain level of math.
<u>Early Childhood Education</u>	No	Any, MATH 101 is fine	Only consideration for students is if they want a minor or double major that requires a certain level of math.
<u>Economics</u>	Yes, very important.	MATH 117 and 118	Eventually must complete MATH 141 or 155 or 160 and Statistics 201 or 204 or 301. Timely graduation best ensured if calculus done by end of sophomore year. Stats by end of 1 st semester junior year (although that is pushing it).

Major	Is math important to first semester schedule?	The ideal math placement result will allow students to register for the following math course(s).	Notes
<u>Ecosystem Science and Sustainability</u>	Yes, very important	MATH 155 or 160	
<u>Electrical Engineering</u>	Yes, very important	MATH 160	It is not possible to graduate in 8 semesters unless you place into MATH 160 in your first semester. It is highly recommended students take the MPE exam prior to orientation due to math prerequisites for courses such as mathematics, CHEM111, PH141 and CS163/164 or CS155/156/157.
<u>Engineering Science</u>	Yes, very important	MATH 160	It is not possible to complete the program in a timely manner unless you place into MATH 160 (depending on concentration-8-10 semesters.)
<u>English</u>	No	Any, MATH 101 is fine	The only math consideration for English is if the student is in or is considering a minor or double major with specific math requirements.
<u>Environmental and Natural Resource Economics</u>	Yes	MATH 117, 118, 124	The algebra section of the MPE is the most important section. You must be enrolled in or have completed MATH 117 & 118 in order to take Ag Economics in your first semester on campus.
<u>Environmental Engineering</u>	Yes, very important	MATH 160	It is not possible to graduate in 8 semesters unless you place into MATH 160 in your first semester.
<u>Environmental Health</u>	Yes, very important	MATH 155 or MATH 160	The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for chemistry.

Major	Is math important to first semester schedule?	The ideal math placement result will allow students to register for the following math course(s).	Notes
<u>Environmental Horticulture</u>	Yes	MATH 117, 118, plus 124 or 125 (see notes)	<p>Three credits of math are required. Landscape Business, and Landscape Design & Contracting Concentrations require up to MATH 125; Other concentrations up to MATH 124.</p> <p>The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for chemistry, and/or microeconomics.</p>
<u>Equine Science</u>	Yes	MATH 117, 118, and 124	
<u>Ethnic Studies</u>	No	Any, MATH 101 is fine	The only math consideration for Ethnic Studies is if the student is in or is considering a minor or double major with specific math requirements.
<u>Family and Consumer Sciences</u>	No	Any, MATH 101 is fine	Only consideration for students is if they want a minor or double major that requires a certain level of math.
<u>Fermentation Science and Technology</u>	Yes	MATH 117, 118, 124, 125	
<u>Fish, Wildlife and Conservation Biology</u>	Yes	MATH 117 or higher	Completing MATH 117, 118, 124, and 125 before the end of the freshman year is critical to staying on track for calculus and other courses that have MATH 155 and/or MATH 117-125 as prerequisites.
<u>Forestry</u>	Yes	Forest Biology concentration MATH 155, all other concentrations MATH 141	<p>The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for MATH141.</p> <p>Completion of MATH141 by sophomore year is key to a student graduating in four years.</p>

Major	Is math important to first semester schedule?	The ideal math placement result will allow students to register for the following math course(s).	Notes
<u>Geology</u>	Yes, very important	MATH 160	The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for chemistry. Some concentrations previously accepted MATH 155. As of Fall 2015, all concentrations must take MATH 160.
<u>Health and Exercise Science</u>	Yes	MATH 117, 118, 124, and 125	
<u>History</u>	No	Any, MATH 101 is fine	Only consideration for students is if they want a minor or double major that requires a certain level of math.
<u>Horticulture</u>	Yes	MATH 117, 118, 124 or MATH 155	Three credits of math are required. Horticultural Science Concentration requires MATH 155; Other concentrations require up to MATH 124. The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for chemistry, and/or microeconomics.
<u>Hospitality Management</u>	Yes	MATH 117, 118, 124	
<u>Human Development and Family Studies</u>	No	MATH 101 or higher	MATH 101 is sufficient for HDFS majors. However students pursuing careers in health professions or pursuing certain other majors and minors should take at least MATH 117, 118, 124.

Major	Is math important to first semester schedule?	The ideal math placement result will allow students to register for the following math course(s).	Notes
<u>Human Dimensions of Natural Resources</u>	Yes	MATH 117, 118, 124	
<u>Interior Design</u>	Yes	MATH 117, 118, 124	
<u>International Studies</u>	Yes, but not critical	MATH 117	Three credits of math required.
<u>Journalism and Media Communication</u>	No	Any AUCC Math	The only math consideration is if the student is in or is considering a minor or double major with specific math requirements.
<u>Landscape Architecture</u>	Yes	MATH 117, 118, 125, and 126	Three credits of math are required. Placing into MATH 118 is ideal. Program requires up to MATH 126. The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for chemistry, and/or microeconomics.
<u>Languages, Literatures and Culture</u>	No	Any AUCC Math – MATH 101 most common	
<u>Liberal Arts</u>	No	Any AUCC math – MATH 101 most common	Many incoming interdisciplinary Lib. Arts students are exploring majors/minors, so Math 117 is recommended if they qualify and are not terrified of it.
<u>Mathematics</u>	Yes, very important	MATH 160	

Major	Is math important to first semester schedule?	The ideal math placement result will allow students to register for the following math course(s).	Notes
<u>Mechanical Engineering</u>	Yes, very important	MATH 160	It is not possible to graduate in 8 semesters unless you place into MATH 160 in your first semester.
<u>Microbiology</u>	Yes, very important	MATH 155 or MATH 160	The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for chemistry.
<u>Music (BA and BM)</u>	No	Any, MATH 101 is fine	Only consideration for Music students is if they want a 2 nd major or minor that requires a certain level of math.
<u>Natural Resource Tourism</u>	Yes	MATH 117, 118, 124	
<u>Natural Resources Management</u>	Yes	MATH 117, 118, 125	Completion of three math credits by sophomore year is key to a student graduating in four years.
<u>Natural Sciences</u>	Yes, very important	MATH 155 or 160	The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for chemistry.
<u>Neuroscience</u>	Yes, very important	MATH 155 or MATH 160	The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for chemistry.
<u>Nutrition and Food Science</u>	Yes	MATH 117, 118, 124	Nutritional sciences concentration also requires MATH 125.
<u>Philosophy</u>	No	Any AUCC Math – MATH 101 is fine	The only math consideration for Philosophy is if the student is in or is considering a minor or double major with specific math requirements.
<u>Physics</u>	Yes, very important	MATH 160	

Major	Is math important to first semester schedule?	The ideal math placement result will allow students to register for the following math course(s).	Notes
<u>Political Science</u>	No	Any AUCC Math – MATH 101 is fine	The only math consideration is if the student is in or is considering a minor or double major with specific math requirements.
<u>Psychology</u>	Yes	MATH 117	
<u>Rangeland Ecology</u>	Yes	Range and Forest concentration MATH141; all other concentrations MATH117, 118, and 125	Completion of three math credits by sophomore year is key to a student graduating in four years.
<u>Social Work</u>	No	Any AUCC Math – MATH 101 is fine	
<u>Sociology</u>	No	Any AUCC Math—MATH 101 is fine	Three credits of math required. Math 105, 133, and 135 are NOT acceptable.
<u>Soil and Crop Sciences</u>	Yes	Plant Biotechnology, Genetics, and Breeding concentration – MATH 124, 125, 126, All other concentrations – MATH 117, 118, 124	
<u>Statistics</u>	Yes	MATH 160	
<u>Theatre</u>	No	Any, MATH 101 is fine	Only consideration for students is if they want a 2 nd major or minor that requires a certain level of math.
<u>Undeclared Exploring Arts/Humanities and Design</u>	No, but encouraged	Math 117 encouraged, any math is acceptable	
<u>Undeclared Biomedical Interest</u>	Yes	Math 124	

Major	Is math important to first semester schedule?	The ideal math placement result will allow students to register for the following math course(s).	Notes
<u>Undeclared Business Interest</u>	Yes	Math 118	
<u>Undeclared Information Technology Interest</u>	Yes	Math 160	
<u>Undeclared Engineering Interest</u>	Yes	Math 160	
<u>Undeclared Exploring</u>	No, but encouraged	Math 117	Depends on major
<u>Undeclared Exploring Global and Social Sciences</u>	Yes, but not critical	Math 117	Depends on major
<u>Undeclared Exploring Health, Life, and Food Sciences</u>	Yes	Math 117	
<u>Undeclared Exploring Land, Plant, and Animal Sciences</u>	Yes	Math 117	
<u>Undeclared Exploring Environmental and Natural Resources</u>	Yes	Math 117	

Major	Is math important to first semester schedule?	The ideal math placement result will allow students to register for the following math course(s).	Notes
<u>Undeclared Exploring Organization, Management, Enterprise</u>	Yes	Math 117 or 118	
<u>Undeclared Exploring Physical Sciences and Engineering</u>	Yes	Math 124	Most majors in this area require Math 160
<u>Undeclared Journalism Interest</u>	No, but encouraged	Math 117 encouraged, any math is acceptable	
<u>Watershed Science</u>	Yes, very important	MATH 155 or 160	
<u>Zoology</u>	Yes, very important	MATH 155	The algebra section of the MPE is the most important section. Placing out of the two algebra courses (MATH 117 and 118) will allow you to register for chemistry.
