

Due to COVID-19 I want to ...

emphasize

- student choice
- time-efficiency
- public-facing component
- optional flex time for CSU folks (end of class)

de-emphasize

- stress
- drinking from a fire hose
- being lost and confused for the entire second half of the course
- grading
- notation (when possible)
- mandatory time spent outside class
- striving for breadth and depth

What might a typical class look like?

15 min Public-facing lecture and questions

10 min "Private" discussion

15 min Public-facing lecture and questions

10 min "Private" discussion

10 min Impromptu student interviews

15 min Flex time: lingering questions, chat about data science news, professional development, etc.

Other thoughts

- Now is not an easy time to be a student
- Academia (and non-academia) are changing — but how?
Can you find ways to invest in yourself and in others?
