Don't I like the fact that on the quizzes we can't go back and check our answers, makes no logical sense, and makes doing the quizzes more frustrating than they need to be.

'I think the quizzes should be worth a lot more than what it is! Quizzes take too much time.

I really liked how you communicated with us weekly; no other professor does that.

I like how you have class notes online. They are very helpful.

You were always available after class!!!

Thank you,

Lorena Luna

Robert was a great professor this semester, he taught in a manner that was easy to follow and his jokes kept class from getting boring. His problem sessions were very helpful for me and increased my learning a lot. He was understanding and helpful when I was sick. Overall Robert was an amazing professor.

Very difficult course for non-math majors - required for business major.

Enormous amount of time/effort spent, but little improvement

Instructor very good, but course geared for math talented students rather than business students - seems a bit unequal

Overall class was good, but I think our grades should be worth a little more so that it can help improve grades more.
Grading for the rest is a little strange. I think maybe consider dropping lowest grade.
Some of the exams I felt were too long to do in the amount of time we were given.
