

## What to expect on the Second exam in Math 141

First of all, be sure to master all homework problems.

This includes all the homework problems in section 3.4 - section 4.2.

Here is the list:

Section 3.4: Page 245, Problems 7-29 odd, 97

Section 3.5: Page 261, Problems 13,15,17,29,31,35

Section 3.7: Page 276, Problems 1-13 odd, 21,23,33,34

Section 4.1: Page 298, Problems 7-29 odd

Section 4.2: Page 314, Problems 35-41 odd, 43-61 odd

If you would like to work on more problems which cover the same ideas then here is a very long list of problems from which to choose:

Section 3.4: Page 245, Problems 3-38, 69-72, 75-76, 83-84, 97

Section 3.5: Page 261, Problems 7-20, 29-31, 34-35,

Section 3.7: Page 276, Problems 1-14, 21-23, 33,34

Section 4.1: Page 298, Problems 7-36

Section 4.2: Page 314, Problems 35-42, 43-62

There will be no "Concept" problems on this test. The problems on the test can be expected to have a similar flavor as those found on the homework assignments. Most likely, the test will have between 6 and 8 problems.
